FAH ENDORSES “STAND FOR QUALITY”

The following statement was released today by Chip Kahn, President of the Federation of American Hospitals.

The Federation of American Hospitals is proud to be a member of the “Stand for Quality” steering committee, and we believe that its six recommendations are crucial to advance health reform. We will not succeed in transforming our health care system if we cannot harness the good work already done with quality improvement and move it to the next level, in partnership with the public and private sectors.

###

The Federation of American Hospitals is the national representative of investor-owned or managed hospitals and health systems. Our members include general community and teaching hospitals in urban and rural areas as well as rehabilitation, long-term, cancer and psychiatric hospitals.
